-BRIEF WIRINGS-

Mr. Atkins Takes a Trip.
WASHINGTON, May 6.—Secretary Atkins has gone to West Virginia for a few days.

A Salt War.
SALT LAKE, Utah, May 7.—The Michigan Salt Company, reduced the price of salt 10 cents a barrel at all western agencies. The cut is to meet New York and Ohio competition.

The Seal Island Treaties.
WASHINGTON, May 6.—Secretaries Blaine, Foster and Mr. E. S. Phelps had a conference with the president at the White House this morning in regard to the Behring sea arbitration. The exchange of the ratifications of the treaty will take place in London to-day.

Allies in Our Army.
CINCINNATI, May 7.—At the meeting of the Local League resolutions were adopted, demanding the regular army in time of peace of men who are not citizens of the United States and directing that it be brought to the attention of the proper authorities.

A Cracker War.
DENVER, May 7.—The cracker factories of Denver have now commenced cutting down prices. The National Cracker company was the first to make a reduction, taking off from half a cent to one cent a pound on certain grades of goods and the American Cracker company immediately followed with a like reduction.

Free Delivery Appropriation.
WASHINGTON, May 7.—The house post-office committee has agreed to report favorably on the measure appropriating \$100,000 for the extension of free delivery in the rural districts, and providing for the issue of fractional postal notes. The sum of \$100,000 is appropriated to carry out the provisions of the latter bill.

Convict Labor.
SPRINGFIELD, Mo., May 7.—The Missouri state road convention in session here, with Senator Cochran chairman, adopted a resolution that the present convict labor system should be abolished, and all convict labor be applied to the improvement of public highways and other public improvements.

Seventy-Eight Miles an Hour.
NEW YORK, May 7.—The Empire State express on the New York Central recently made four miles at the rate of seventy-eight miles an hour. The record was made on a revolution a minute. It is thought that with one car the engine could run 100 miles an hour. The locomotive is the record breaker, which, on the famous run to Buffalo on September 14, 1891, made 439½ miles in four hours and twenty-five minutes.

Mexican Central Affairs.
BOSTON, May 7.—The annual report of the Mexican Central Railway company for 1891 shows a surplus for the year over all charges and interest upon the first income bonds of \$7,438, including \$300,000 received from the subsidy trust fund, and the interest upon the first income bonds. The report shows a surplus of earnings of \$87,896 over the absolute fixed charges. The directors voted to pay the interest on the first income bonds.

Congressional.
WASHINGTON, May 7.—The senate took up the resolution heretofore offered by Senator Jones, of Arkansas, for payment of the Choctaw and Chickasaw nations for their interests in the Cheyenne and Arapahoe reservations (about \$3,000,000), as the unfinished business, and Senator Dawes, chairman of the committee on Indian affairs, addressed the senate in advocacy of the resolution.

Eulogistic addresses were made on the late Senator Wilson, of Maryland. The house discussed the river and harbor bill, but made little progress.

"August Flower"

For Dyspepsia.

A. Bellanger, Propr., Stove Foundry, Montague, Quebec, writes: "I have used August Flower for Dyspepsia. It gave me great relief. I recommend it to all Dyspeptics as a very good remedy."

Ed. Bergeron, General Dealer, Launson, Quebec, writes: "I have used August Flower with the best possible results for Dyspepsia."

C. A. Barrington, Engineer and General Smith, Sydney, Australia, writes: "August Flower has effected a complete cure in my case. It acted like a miracle."

Geo. Gates, Corinth, Miss., writes: "I consider your August Flower the best remedy in the world for Dyspepsia. I was almost dead with that disease, but used several bottles of August Flower, and now consider myself a well man. I sincerely recommend this medicine to suffering humanity the world over."

G. G. GREEN, Sole Manufacturer, Woodbury, New Jersey, U. S. A.

Signed by the President.

WASHINGTON, May 7.—The act to prohibit the Chinese persons into the United States was held before the president yesterday and he had a conference with the attorney general in regard to it. The latter examined the matter carefully and informed the president that it was a very grave question whether all the existing restrictive legislation did not expire to-day. In order, therefore, to avoid any possible legal complications that might arise on the point the president allowed his signature to the bill.

Compartment Car Outrage.

LONDON, May 6.—To-day another English railway outrage was reported, and it was stated that the English railway companies will have to adopt better means to protect women from assault in their railway carriages. The train was a compartment car and a dressmaker named Amy Fankner.

Some men, walking along the railway near Leeds found a woman lying on the rails. She was just able to state that she had been assaulted in a compartment of a railway carriage, and that after her assault had outraged her, he had thrown her headlong from the carriage. The train was running at full speed.

Mountain Rate of \$12.

CHICAGO, Ill., May 7.—The order has been given by the Atchison, Topeka & Santa Fe road that it will make a round trip rate of \$12 from Chicago and St. Louis to Denver and return on the occasion of the triennial convocation of the Knights Templar next August, in consequence of a similar rate having been offered by competing lines.

It was decided to take the same action in regard to the Knights of Pythias encampment at Kansas City. In the latter case a round trip rate of \$10 was offered, and the Kansas City was agreed to, but the Atchison claims to have discovered that the Knights from Toledo for \$9.50, or for 25 cents less than the Chicago rate.

Kansas Republicans.

HUTCHINSON, Kan., May 7.—The Republican state convention yesterday nominated ex-Governor Anthony congressman at large and ex-Senator Inalla delegate at large to Minneapolis. The selection of the other members of the Minneapolis delegation resulted in the election of C. C. James (colored), of Emporia; Calvin Hood, of Emporia; L. A. Binger, of Hutchinson; E. C. Ellis, of Abilene, and A. H. Ebel, of Beloit. The electoral ticket was made up as follows: William Hamilton, of Topeka; Rodger, of Kansas City; and D. W. Wier, of King City. Hamilton is a locomotive engineer. A resolution was adopted instructing delegates not to vote for any federal position.

Ex-Congressman Peters was designated to succeed C. J. Leland, against whom the resolution seemed to be aimed, as a member of the Republican national committee. Leland is internal revenue collector. After endorsing the administration, the convention adjourned.

La Grippe and Royal Funds.

LONDON, May 7.—A "blue book" has been laid on the table of the house of commons which illustrates in a marked degree the old adage that it is an ill wind that blows nobody any good. According to the figures it contains the epidemic of influenza with which the United Kingdom was afflicted last year has been turned to good account, the probable duties on estates for the past year having been \$2,000,000 over the receipts of the former years.

The total receipts on this account have been something like \$20,000,000, one half of which goes into the imperial exchequer. The royal family has, therefore, benefited to a very large degree by the unexpended mortality of the past year. The report issued by Prof. W. H. Thresh, medical officer of the county of Essex, states that the influenza epidemic in this particular county killed more than 540 people, and that 1,400 other deaths occurred in the district from its indirect influence.

Purity of the Ballot.

CHICAGO, May 7.—A call has been issued for a national convention to be held at the Sherman house on Tuesday next for the purpose of bringing into existence the Federal Suffrage association. The object of this organization, it is given out, is to secure uniformity in the election of federal officers, a definition of the word "citizen" as used in the constitution of the United States, and a more definite guarantee of the citizen's right to vote. The organization, although different from the Women's Suffrage association now existing, will advocate the right of women citizens to vote for federal officers under the constitution, and will urge upon congress the passage of an act providing for the casting of ballots by women. Many of the older workers in the Women's Suffrage movement are interested in the new organization. Among them are Isabella Beecher Hooker, Abigail Scott, Judge C. B. White, of Illinois; Senator Cullen, of Illinois; Rev. Antonette Brown Willis and Rev. Walter Thomas Hills.

Political Crisis in Rome.

ROME, May 7.—Marquis Di Rudini, prime minister, yesterday tendered to King Humbert the resignation of all members of the cabinet. This is due to the failure of the chamber of deputies to adopt the vote of confidence in the government's financial policy, which included a heavy reduction in credits in military and naval expenditures. King Humbert has not yet accepted the resignation of the ministry, and he is undecided as to what course to take in the matter. The Figaro says, King Humbert is in a dilemma that he must either dismiss the

army or see his country bankrupt. The Gaulois claims that the Italian position is a triumph for the Vatican.

National Politics.

Delaware elected Harrison delegates. The Republicans of the fifth district, at Xenia, Ohio, on the 10th inst., nominated G. W. Hackitt, of Claymont county, for congressman. A. E. Earhart was nominated for presidential elector. The West Virginia delegates at large were: C. B. Hart, of the Wheeling Independent; ex-State Senator Thomas E. Davis, of Graham; John DeWitt, of Mercer county; John A. Huchinson, of Parkersburg.

Wisconsin Republican state convention selected the following electors: Martin Robinson, C. F. Miller, E. W. Coon, R. H. Hawks, Sam'l W. Koss, J. E. Brady, George Fitch, T. L. Gilbert, William Harrison, Edward H. Winchester, Clarke Jerome. Harrison was endorsed. Idaho declares for Blaine. The following delegates were selected: Willis Sweet, state senator; James M. Shopp, W. R. Hoyt, Monte E. Gunn, D. C. Lockwood. On the silver question the platform recites the evils attributed to demonetization and continuing says: "The Republican party is today confronted with the alternative of restoring silver to free and unlimited coinage or of losing the results of protection. The anti-silver policy of the government is lowering the price of all products and wages, and thereby eventually being involved in a disastrous decline notwithstanding the protective system."

WORLD'S FAIR WORK.

Library Table Designs—A Vote of Thanks to Mrs. Seligman—Friday Night's Entertainment.

On Tuesday, May 3, the special exhibit committee held a meeting for the purpose of taking final action upon the designs submitted in response to the call of the table committee. At a previous meeting several pleasing designs for a table top had been examined, but the committee could not agree upon a base; hence the several calls for designs. Among the new designs, one of a base was easily decided upon. It was already a general favorite, was selected as being best suited to the table. Both base and top were designed by Mrs. Wientge. Unfortunately Mrs. Seligman's design bore his name, and hence did not enter into the competition.

Among the designs submitted by ladies was one for a table top by Mrs. Seligman, which was greatly admired, and proved a close competitor for final favor. To this design was awarded by unanimous vote, the first prize of \$100 for designs made by women. Mrs. Seligman's design only returned the prize money to the treasury. The second prize of \$5 was awarded to both designs of Lorette. Both the design and Mrs. Seligman's are to be exhibited in the women's building at Chicago.

By a unanimous vote the ladies of the committee expressed their appreciation of Mrs. Seligman's indefatigable efforts in behalf of the table. In securing donations, assisting at entertainments, and in every way possible she has promoted the interests of this enterprise, which looks to the two-fold good of the country, first by showing the variety of the mineral wealth second by turning the nucleus of a public library fund.

Other parts of the county are joining hands with Santa Fe in this laudable work. The ladies of Cerillos are preparing for an entertainment and from San Pedro, Espanola and Lamy, material aid is assured.

Our committee have arranged to give a dance and supper at the Cerillos on Friday evening of next week. There will be an abundance of refreshments and ample room for dancing. For this latter purpose the entire room of the lower corner will be utilized, supper being served elsewhere.

The committee anticipate a large measure of success, social and financial, as a result of the arrangements now in progress.

MINING MATTERS.

The Cerillos Live Oaks mine shipped a car load of ore last week for which \$40 per ton was refused on the dump. Highly satisfactory tales of Dolores ore by St. Louis experts have been made and extensive operations in that field will be inaugurated.

W. A. Graves, of the American Ore & Machinery company, New York, is in from Dolores to-day. He is putting up a Nord mill at Dolores for the Santa Fe-St. Louis company.

In the injunction proceedings of the Lincoln-Lucky company vs. Parnell mine claimants Judge Seeds to-day rendered a decision dissolving the injunction.

Material is being delivered for half a dozen extensive coal chutes at Cerillos, and arrangements are about completed for working 1,000 men in the coal pits about the Little Pittsburgh.

It is said the Lincoln-Lucky company has jumped the Anaconda claim, and will contest in the courts its right, under the apex theory, to follow the big silver lead vein under the Anaconda's surface ground. Internal wrangling over the management of the Cash Entry mines has been in progress for several weeks, both here and in London, and the wires have been kept hot with controversy. As a result Capt. Richard Williams was yesterday relieved as manager and Mr. T. C. Peterson, the company's metallurgist, is temporarily in charge. It will all be adjusted in time.

Makes the Weak Strong

The marked benefit which people in run down or wretched state of health derive from Hood's Sarsaparilla, conclusively proves the claim that this medicine "makes the weak strong." It does not act like a stimulant, imparting strength from which there must follow a reaction of greater weakness than before, but in the most natural way Hood's Sarsaparilla overcomes that tired feeling, restores an appetite, purifies the blood, and, in short, gives great bodily, mental and digestive strength.

Fagged Out.

"Last spring I was completely fagged out. My strength left me and I felt sick and miserable all the time, so that I could hardly attend to my business. I took one bottle of Hood's Sarsaparilla, and it cured me. There is nothing like it." E. C. Brooks, Editor, Easton, Pa.

"I derived very much benefit from Hood's Sarsaparilla, which I took for general debility. It built me right up, and gave me an excellent appetite." Ed. Jenkins, Mt. Savage, Md.

N.B. If you desire to take Hood's Sarsaparilla do not be induced to buy anything else instead. Insist upon having

Hood's Sarsaparilla

Sold by all druggists, \$1, six for \$5. Prepared only by C. L. HOOD & CO., Lowell, Mass.

Manager McLaughlin, of the San Pedro copper works, tells the Corral del Rio that the case in the copper mine, is in every respect a benefit instead of the great disaster reported; that an obstruction in amounts entirely possible at least, while the cave has made possible at least, the thousand tons of ore not before in sight. Not that alone, but it will save a large amount of expenses which would have been necessary otherwise in timbering. E. E. Summers has just effected a settlement of all his litigation with the Monero, Coal & Coke company of New Mexico, by which the two organizations restrict each other to respective fields. It means millions of dollars to both corporations. President Thomas B. Catron, of the Monero, Coal & Coke company, and President Summers, of the San Luis Coal company, met in Santa Fe recently and adjusted their differences, and Mr. Summers immediately formed the San Luis Coal & Coke company with the following officers: Frank H. Dunley, cashier of the company, and Harlan P. Parsons, secretary and treasurer. The capital stock is \$100,000, all of which has been paid in. The mine with companies are at Monero, Rio Arriba county.

New Guests at the Pen.

John F. Burns, Rio Arriba county's efficient and courageous sheriff, and Deputy Vincent Archuleta, arrived last evening from Tierra Amarilla with Adolfo Martinez sentenced to seven years in the territorial penitentiary for murder, and Prudencio Trujillo, sentenced to nine months in the same prison for horse stealing. The prisoners were turned over last evening to Superintendent De Mier, who will take care of them in first-class style, see that no harm befalls them and that they are properly looked after all hours. Sheriff Burns will be down again from the country of mountains, canyons and trout fishing on the 20th instant, in charge of James A. Spawer, now in the Rio Arriba county jail at Tierra Amarilla for murder, in whose case application for the granting of a writ of habeas corpus has been made, which will be heard and determined on that day by Judge Seeds.

Sheriff Burns reports matters in good shape in his county; plenty of water in the streams, and more land than ever before under cultivation.

Business Notice.

Frank Masterson has opened a cabinet shop two doors from the electric light house, Water street, and is prepared to do all kinds of cabinet work. He is also agent for Santa Fe county of the celebrated Kellogg weather strip, which has been successfully placed in several buildings in this city, and gives such well known references as Hon. E. A. Fiske, Hon. T. B. Catron, Sister Victoria, G. W. Knaebel, Julius H. Giesels and E. W. Seward.

Fine Horse Pasture.—On city acres of bottom lands, under fence, on the Rio Grande, near Espanola. Abundant spring water and splendid grazing. No barbed wire to injure stock. For terms apply to Elias Brevoort, Santa Fe, N. M.

Ladies, send for our pamphlet and testimonial; something new, a veritable blessing. It saves you lots of trouble. Kirkwood Hard Rubber Co., Murphy Bldg., San Francisco, Cal.

Messrs. Knick Bros. are now prepared to deliver to all parts of the city the celebrated Anheuser-Busch beer, in bottles or kegs.

Received at Chas. Neustadt & Co., 30,000 cigars of different brands and grades, which will be sold at prices which were never before known in this country. You will not have to pay for the name of the maker, but will receive actual value for your money.
